If elected, a Coalition government will ensure that DFRB and DFRDB military superannuation pensions are indexed in the same way as aged and service pensions. Our commitment will apply to DFRB and DFRDB superannuants aged 55 and over. Our promise will keep faith with the recipients of military superannuation by providing the fair indexation that Mr Rudd and the Labor Party have previously delivered.

Under the Coalition, 57,000 military superannuants and their families will benefit from a new indexation formula. The Coalition is committed to ensuring fairness for our retired military superannuants by easing the pressure on their cost of living.

In addition, we will restore veterans' advocacy funding paid under the Best in Support and Training (BEST) programme to its 2010 levels, adding \$40 million available over the forward estimates.

The Coalition will continue to support the Centenary of Anzac Local Groups to ensure that community-based commemoration is at the heart of the national commemorative activities.

We will also work with the state and territory governments to progress iconic commemorative projects.

The Coalition will seek further to preserve the unique place of the Australian War Memorial by amending the *Australian War Memorial Act 1980* to prohibit entry or parking fees.

We will also undertake a review of the Australian War Memorial Act 1980 to ensure the Act continues to meet the needs of the Memorial and the wider community.

The Coalition has a strong record of delivering services and assistance to the veteran and ex-service community and their families.

We believe that Australia should protect and watch over our veterans and their families in the very same way that our veterans protected and watched over our country.

The Coalition's commitment to providing a better deal for military superannuants and greater support for our veterans' community is part of our *Real Solution* to build a stronger Australia and a better future for all Australians.
